

Plant List for Low Traffic or Residential Right of Way

Genus	Species	Cultivar	Common Name	Water Use	Recommended Size	Quantity	Annual Maintenance	5-10 year Maintenance
<i>Achillea</i>	<i>millefolium</i>	'New Vintage Violet'	New Vintage Violet Yarrow	moderate to xeric	quart	25	Cut back/shear to base every spring	Follow annual maintenance
<i>Agave</i>	<i>parryi</i>		Parry's Agave	moderate to xeric	gallon	1	None required	None required
<i>Arctostaphylos</i>	<i>x coloradensis</i>	'Panchito'	Panchito Manzanita	moderate to xeric	quart or 1 gallon	2	Never touch unless there is damage to branches and only prune those branches out in spring.	Follow annual maintenance. This can be a long lived woody shrub if growing conditions are correct.
<i>Berlandiera</i>	<i>lyrata</i>		Chocolate Flower	moderate to xeric	quart	6	Hand trim back dead stems in spring.	Follow annual maintenance and allow to go to seed. Thin out any undesirable seedlings.
<i>Callirhoe</i>	<i>involucrata</i>		Winecups	moderate to xeric	quart	32	Cut back/shear to base every spring	No maintenance, long lived plant that is well behaved.
<i>Delosperma</i>		'Alan's Apricot'	Alan's Apricot Hardy Ice Plant	moderate to dry	flat	1	No Maintenance, let spread.	No Maintenance, replace any holes in ground cover with new plants if desired.
<i>Delosperma</i>		GRANITA® Orange	GRANITA® Orange Ice Plant	moderate to dry	flat	1	No Maintenance, let spread.	No Maintenance, replace any holes in ground cover with new plants if desired.
<i>Delosperma</i>		GRANITA® Raspberry	GRANITA® Raspberry Ice Plant	moderate to dry	flat	1	No Maintenance, let spread.	No Maintenance, replace any holes in ground cover with new plants if desired.
<i>Eriogonum</i>	<i>umbellatum</i>	var. <i>aureum</i> KANNAH CREEK®	KANNAH CREEK® Sulphur Flower Buckwheat	moderate to xeric	quart	10	Cut back/shear off spent flower heads every fall. Or leave for winter interest and shear in March.	No maintenance, long lived plant that is well behaved.
<i>Hesperaloe</i>	<i>parviflora</i>		Red Yucca	moderate to xeric	gallon	5	Trim flower stems back to base of plant every early spring.	Follow annual maintenance.
<i>Limonium</i>	<i>latifolium</i>		Sea Lavender	moderate to xeric	quart	12	Hand trim or shear back dead stems in spring.	Follow annual maintenance. This can be a long lived perennial if growing conditions are correct.
<i>Lavandula</i>	<i>angustifolia</i>	'Wee One'	Wee One Dwarf English Lavender	moderate to xeric	quart	12	Hand trim or shear back dead stems in spring.	Follow annual maintenance. This can be a long lived perennial if growing conditions are correct.
<i>Oenothera</i>	<i>macrocarpa</i>	ssp. <i>incana</i> SILVER BLADE®	SILVER BLADE® Evening Primrose	moderate to xeric	quart	12	Hand trim back dead stems in spring.	Follow annual maintenance and allow to go to seed. Thin out any undesirable seedlings.
<i>Festuca</i>	<i>arizonica</i>		Arizona Fescue	moderate to xeric	quart	12	Cut back every early spring.	Follow annual maintenance
<i>Penstemon</i>	<i>pinifolius</i>	SteppeSuns® Sunset Glow	SteppeSuns® Sunset Glow Penstemon	moderate to xeric	quart	7	Hand trim back dead stems in spring.	Follow annual maintenance. This can be a long lived perennial.
<i>Pinus</i>	<i>edulis</i>		Dwarf Pinon Pine	moderate to xeric	gallon	6	No maintenance. Do not shear, just let it grow. Stake to establish; remove stakes after 2 years.	No Maintenance.
<i>Prunus</i>	<i>besseyi</i>	PAWNEE BUTTES®	PAWNEE BUTTES® Western Sand Cherry	moderate to xeric	gallon	2	After its mature, select a few larger branches and prune them off to about 6" above ground and let plant rejuvinate.	In the spring trim over all height back to less than 18" and allow it to rejuvinate.
<i>Sedum</i>		'Purple Emperor'	Purple Emperor Sedum	moderate to xeric	quart	6	Cut back every early spring.	Follow annual maintenance
<i>Sporobolus</i>	<i>heterolepis</i>		Prairie Dropseed Grass	moderate to dry	quart	9	Cut back every early spring.	Follow annual maintenance
<i>Salvia</i>	<i>argentea</i>		Silver Sage	moderate to xeric	quart	4	Cut back every early spring.	Follow annual maintenance
<i>Thymus</i>	<i>serpyllum</i>	'Pink Chintz'	Pink Chintz Thyme	moderate to dry	flat	3	Hand rake or run hand over to remove any dead foliage in spring	Trim out any dead, divide over grown areas and add plantings where desired.
<i>Zauschneria</i>	<i>garrettii</i>	Orange Carpet®	Orange Carpet® Hummingbird Trumpet	moderate to xeric	quart	16	No maintenance or trim a few inches each year to promote spreading the plant into a wider size.	Follow annual maintenance. This is a long lived perennial and continuously spreads out from center at a reasonable rate, but divide if it grows too large.

Notes and helpful links:

Soil Amendment: Incorporate squeegee with existing soil at a depth of 6" minimum.

If soil is heavy clay, optional to remove top 6" and replace with 1:1 ratio of topsoil to squeegee.

Mulch with squeegee rock at a depth of 2-3"

Groundcovers (Delosperma and Thymus) to be planted throughout entire bed along edges
